

Summary

Visual Designer with a Marketing Mindset

I work across graphic design, interface design, and branding. Through placements at two Fortune 500 companies and collaboration with the world’s leading automaker, I’ve honed my sense for aesthetics that not only look good but resonate with audiences. I also tutored Autodesk-authorized undergraduate workshops, helping students build creative design skills.

With dual Master’s degrees from Macquarie and the University of Sydney, I’ve built a strong foundation in creative industries and digital media. My academic journey saw me achieve High Distinctions in all visual design courses and deliver award-winning campaigns.
